Double Take

by Kevin Michael Connolly | ★★☆☆

REVIEWED BY BRIAN BRAIKER

MEMOIR

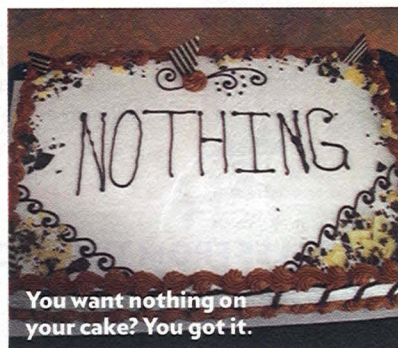

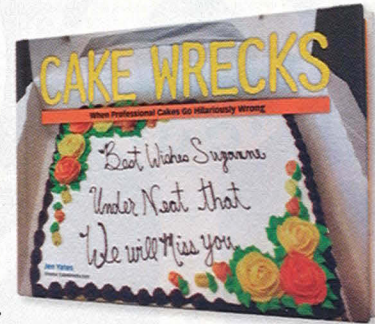

In this breezy, charming memoir, Connolly recounts growing up a scrappy Montana kid—one who happened to be born without legs. Increasingly annoyed by the stares of pity and horror that greeted him wherever he scooted on his skateboard, he set out to inspire respect instead, becoming an extreme skier on a custom-built mono ski and ultimately finishing second in the Winter X Games in

2007. Connolly used the winnings to travel around the world on a mission: taking thousands of snapshots of gawkers (like the boy on the book's cover). Returning that gaze proved a cathartic way to process a lifetime of feeling like a spectacle. It makes for an empowering read.

BUZZ BOOK DESSERTS GONE WRONG

"I'm not out to be mean to bakers," says *cakewrecks.com* founder and author Jen Yates, who collects photos of cake mistakes. "It's human nature to goof up." For instance:

THEY DON'T
LIKE THE TASTE
OF MARGARINE,
EITHER.

Made with real butter, not margarine like some brands.
